AILET

AILET 2026 Exam Analysis

Adtiya Aryan · 15 Dec 2025

The **AILET 2026** examination was conducted on December 14 (Sunday), and based on expert review and early student feedback, the overall difficulty level of the paper can be classified as **moderate** across all three sections.

The paper followed the familiar pattern traditionally set by National Law University Delhi, focusing on conceptual clarity, logical application, and careful time management rather than introducing unexpected elements.

Students who maintained accuracy, avoided guesswork, and managed time efficiently were clearly at an advantage. The paper rewarded preparation and discipline more than aggressive attempting.

As per the AILET 2026 exam analysis, **English Language**, **Current Affairs and General Knowledge**, and **Logical Reasoning** were all moderate in difficulty, with Logical Reasoning leaning towards the easier side for well-prepared candidates.

Notably, Logical Reasoning included around **four to five legal reasoning questions**, all of which were straightforward and scoring for students with basic legal awareness.

This detailed AILET 2026 exam analysis provides a section-wise breakdown of difficulty level, question trends, good attempts, and expected cut-off insights to help candidates realistically assess their performance.

Section-Wise AILET Exam Analysis 2026

Section	Difficulty	Nature of Questions	Comparison with AILET 2025
English Language	Moderate	Vocabulary, grammar, comprehension	Largely similar

Current Affairs and GK	Moderate	Static GK and current affairs	Similar, coverage dependent
Logical Reasoning	Easy to Moderate	Legal and analytical reasoning	Continues to be decisive

AILET 2026 Question Paper Pattern

Section	Number of Questions	Marks
English Language	50	50
Current Affairs and General Knowledge	30	30
Logical Reasoning	70	70
Total	150	150

English Language: AILET 2026 Exam Analysis

Aspect	Details
Difficulty Level	Moderate
Topics Covered	Synonyms, antonyms, error spotting, fill in the blanks, idioms, sentence correction, vocabulary, reading comprehension, jumbles
Passage Length	Short to medium
Question Style	Direct language and context-based
Good Attempts	40 or more

The English section rewarded candidates with strong reading speed and vocabulary-in-context skills. Grammar questions were mostly direct, while comprehension passages tested inference and

tone rather than factual recall.

The main differentiator in this section was time usage. Candidates who overthought sentence correction and jumbled sentences often lost valuable minutes. For those who approached it calmly, English served as an effective confidence booster early in the exam.

Current Affairs and General Knowledge: AILET 2026 Exam Analysis

Aspect	Details
Difficulty Level	Moderate
Total Questions	30
Time Required	15 to 18 minutes
Accuracy Potential	Medium
Good Attempts	22 to 24
Good Score	20 to 22

The Current Affairs and GK section remained largely consistent with previous years. There were no major surprises in terms of pattern or difficulty.

A significant number of questions were drawn directly from well-known preparation sources and standard law entrance modules. Students who maintained regular revision were able to attempt most questions with confidence.

Time management was not a concern for most candidates, making this a stable scoring section provided accuracy was prioritised over blind attempts.

Logical Reasoning: AILET 2026 Exam Analysis

Aspect	Details
Difficulty Level	Easy to Moderate

Total Passages	2
Total Questions	28
Key Topics	Assumptions, inferences, conclusions, strengthening and weakening arguments
Time Management	Comfortable
Accuracy Potential	High
Good Attempts	24
Good Score	Around 23

Logical Reasoning emerged as one of the most scoring sections of the paper. With only two passages and a manageable number of questions, both reading load and time pressure remained under control.

The questions closely mirrored official sample papers and previous trends. While some AI-based questions were reported, they did not significantly increase difficulty. Most questions could be solved effectively using option elimination.

Candidates who remained calm and avoided overanalysis were able to maximise their scores in this section.

AILET 2026 Expected Cut-Off (Expert Estimate)

Category	BA LLB (Hons)	LLM
General	85 to 95	62 to 68
OBC (Non-Creamy Layer)	70 to 75	48 to 53
EWS	58 to 65	40 to 44
SC	48 to 55	45 to 50
ST	42 to 50	43 to 48
PwD	65 to 70	50 to 55
Kashmiri Migrants	75 to 80	60 to 65

J and K Residents	70 to 75	Not Applicable

Note: *These are estimates.*
