Difficulty Level of CLAT 2022 PG Exam: An Analysis

The exam in total consisted of **33 pages**. Overall, it can be said that the difficulty level of CLAT PG was **difficult**.

There were **20 legal passages,** each containing **6 questions** related to the passage. The question paper was based on topics that have been of **recent concern** for the legal community.

The difficulty level of the paper was **difficult.** An analysis of the paper highlights the significance of recent judicial decisions in the examination. It was quite surprising to see questions from Company Law, Evidence Act, Tax Laws and Juvenile Justice this time as these topics are generally not tested in the CLAT PG Exam.

The paper was conceptual, testing the legal acumen of the students. Some instances of **problem-based questions** were also found in the paper.

The majority questions asked were from Criminal Law, Constitutional Law, Jurisprudence, Contracts and International Law. The paper majorly focused on the recent developments with few questions from the static landmark cases. Most of the questions from contract were situation based and easy to attempt. Criminal law questions were based on recent issues like arrest, dowry death etc.

Also, a complete passage from amalgamation of companies is a kind which we generally didn't expect.
