This is how the ‘IP- Law and Practice’ Course is structured

Patents Module

Module 1: Patents- Understanding Patents, International & Indian Patent Regime

To help learners understand the scope of Patent Law, this module explores what is patents, comparative differences between Patents and other Intellectual Property, namely, Trademark, Copyright and Design and comparative analysis of Patent Law regimes of US, EU and China with that of Indian Patent Law regime.

Module 2: Patents-Subject Matter Eligibility

The Indian Patent Act does not specifically mention what comes under the ambit of subject matter, but it does mention certain categories of inventions that cannot be patented. This module explores subject matters which can be protected under the Indian Patent Law Act.

Module 3: Patents-Procedure for obtaining, Revocation and Opposition

This module discusses the end-to-end procedure of obtaining a patent, starting with the drafting of various sections of the patent application to the grant of the patent.

Module 4: Patents-Rights and Maintenance, Protection and Enforcement- Infringement and other remedies

This module covers infringement of Patents and the remedies under the Indian Patent Law, 1970 available to the patent holder.

Module 5: Patents- Assignment, Licensing, and Working

This module covers the assignment of a patent by the patent holder, working of patents i.e. to what extent the patented invention has been worked and compulsory licensing which is a license granted by the Government to a third party without the authorization of the patentee.

Module 6: Patent Practice: See and Learn how things really work!

– Real-life demonstration of how Prior Art search (basics of the same) is conducted. – Learn how to analyze the search report. – Learn how to analyze the patentability criteria.

Trademarks Module

Module 7: Trademarks- Introduction & Clearance Search

In this module, you will learn in-depth about the basics of Trademarks, the kinds of trademarks, distinctiveness, and the types of applications filed to protect the trademarks in India and also ‘Clearance Search’.

Module 8: Trademark- Registered and Unregistered & Process for Registration

In this module, we will be learning about the importance of the registration of Trademarks in India. We will also be looking at the concept of Passing off which can be used to enforce

unregistered trademark rights.

Module 9: Trademarks – Refusal, Examination and Opposition, Post Advertisement Procedure & Well-Known Trademarks

In this module, we will be reading about absolute or relative grounds as provided under Sections 9 and 11 respectively. We shall also be learning about the acquired distinctiveness of a trademark and what are some of the prohibited trademarks under the Trademark Act, 1999.

Module 10: Trademarks – Infringement, Customs Recordal and Madrid Protocol

In this module, we will learn about how different types of infringement of trademark take place and what legal remedies are available to the owner of the trademark. This module will also explain what are the defenses available in the infringement action and the rights of the prior user of the trademark.

Module 11: Trademark Practice: See and Learn how things really work!

– Real-life demonstration of conducting a Trademark Search. – How to File a Trademark Application? – Other TM Application Forms. – Handling Oppositions and Objections.

Learner’s Feedback

Aishani P.
Symbiosis Law School, Hyderabad

The most enticing part of this course was the engaging lectures of HB Kesava Sir. His erudite lectures and articulate explanation of a tricky law like copyright was the highlight of the entire course. Sir's lectures made a complex law like copyright seem very easy to grasp and understand. The most important aspect was the practical approach of the course deviating from the monotonous theoretical knowledge, this indeed benefited budding lawyers in making who aspire to practice as an IPR Attorney.

Uday Anand
Symbiosis Law School, Pune

It was a great experience. This course acts as a great entry point for anyone who wishes to know about trademark law and/or wishes to make a career in the same. The reading material is awesome, the recorded lectures offer a simple explanation, and the live sessions are great because the teaching method adopted by the expert helped boost learning.
The TM practical modules were arguably the best innovation in the course because being able to understand the kind of forms and applications available for filing and to have the knowledge to be able to conduct a basic trademark search is just awesome and empowers the students and boost their confidence. The course support and delivery mechanism were impeccable.
