4. Mock Tests

Take a few full-length mock tests or solve **previous year question papers of AILET** to simulate the actual exam environment. This helps in managing time and builds stamina. Analyze your performance in these tests to identify weak areas and work on them.

5. Time Management

Practice time management during your mock tests. Allocate a specific time to each section and stick to it. In the exam, don’t spend too much time on one question. If you get stuck, move on and come back later if time permits.
