Lawctopus' 6-Months Legal and Contract Drafting Skills Accelerator with 1:1 Personal Coaching Sessions [Nov 1, 2026 - Apr 30, 2027]: Register by Oct 5!

Shruti chauhan · 26 Sep 2026

Become a 360° Skilled, Confident, and Income-Ready Lawyer in Just 6 Months. Master Civil Drafting, Criminal Drafting, Advanced Legal Research and Writing, Contract Drafting, Corporate Drafting, Freelancing, Networking and Negotiation.

Get active job and internship support from Lawctopus' Placement Cell!

Our BIG promise: Within 6 months, earn back 2 times of what you invest in this program, or we'll refund you 100% of your investment.

*We'll begin with a **dedicated Goal Mapping Session** to understand where you are, where you want to go, and what it will take to get there. Based on this, we'll create **individual Progress Cards** for every student to track your goals, milestones, progress and areas that need attention throughout the programme.*

*You'll receive **8 personalised, practical guidance tailored to your goals**, rather than generic career advice. Each session is valued at **Rs. 4,000**, giving you **Rs. 32,000 worth of personalised coaching** as part of the course.*

The Problem: What Law Colleges & Internships Don't Teach You

Most law students and young lawyers **never get a real chance to learn legal drafting.**

Law schools teach theory. Internships offer exposure, but not structured learning or feedback.

Lawyers are too busy to explain why a clause or petition is written a certain way.

So you end up **watching, copying, and guessing** your way through drafting instead of learning it properly.

This gap creates a vicious cycle: ☐ No drafting skills lead to ☐ no opportunities which lead to ☐ no confidence, which lead to ☐ lost years and income.

Many bright law graduates and young lawyers spend 4–5 years **wandering and wondering** before they feel confident in their drafts losing nearly **₹6,00,000 in potential income** and even **client trust** in that time.

Meanwhile, **senior lawyers** often struggle with **positioning their expertise** and **leveraging freelance or digital platforms** to expand their practice and income.

Worse, they lose faith in themselves and, too often, in the profession itself.

The Solution: The Lawctopus 360° Legal and Contract Drafting Skills Accelerator

Our **6 Months Long, Live Online Program** ends this cycle: with structure, mentorship, and care.

Through **rigorous and flexible online training**, you'll become **competent, confident, and career-ready** in legal drafting: civil, criminal, and contractual.

You'll learn to draft like a professional, not by memorizing templates, but by understanding the *why* behind every clause, line, and comma plus practicing and getting feedback from experts

Building AI-Ready Legal Careers at Lawctopus Law School

Lawctopus Law School (LLS) believes that **AI is no longer optional for lawyers**, it is fast becoming a core professional skill. At the same time, we strongly believe that AI must be used

responsibly and ethically.

Over the last 6 months, the LLS team has actively trained itself in the latest applications of AI across legal research, drafting, litigation support, and career development.

How We Teach AI at Lawctopus Law School

Every live course at LLS includes **four structured AI learning elements**, designed to help learners *use AI confidently in real legal work*.

1. LIVE AI Sessions with Leading Legal-Tech Organisations

We have tied up with two of India's most credible AI-driven legal platforms:

- 1. Indian Kanoon (Prism)**
- 2. Jurisphere**

Each of these organisations shall conduct **regular LIVE sessions (60-90 minutes)** for LLS learners, typically once every month or two.

What learners gain:

- Practical demonstrations of AI tools used in Indian legal work
- Real use cases in research, drafting, litigation, and analysis
- An introduction to how these tools fit into everyday legal practice
- An understanding of where AI can and cannot be used

All sessions are conducted under the broad theme: **Using AI in Real Legal Work.**

2. 4-Hour Recorded Workshop: AI for Lawyers

All LLS learners receive access to a **4-hour recorded workshop (4 sessions)** covering:

- Using AI for Legal Research
- Using AI for Argumentation and Mooting
- Using AI for Legal & Contract Drafting
- Technology & Ethics Behind AI in Law

These sessions are recorded by [Himansh Wadhwa](#) and [Shruti Kaushik](#), Legal Product Developers at **Indian Kanoon**, ensuring technical depth and legal accuracy.

3. Complimentary Access to Indian Kanoon's AI Tool (Prism)

Every learner at Lawctopus Law School receives **1-month complimentary access to Indian Kanoon's AI tool, Prism**.

This enables our learners to practice:

- Conducting faster and smarter legal research
- Drafting and refining legal documents and contracts using AI assistance
- Exploring multiple real-world use cases of AI on India's largest caselaw repository

4. AI Guidance from Faculty & Course Mentors

Beyond tools and workshops, AI is actively discussed inside select live classes. Our **Faculty and Course Mentors** regularly explain how AI can be used to:

- Improve performance in corporate law & contract drafting
- Strengthen legal research and writing
- Support civil & criminal litigation
- Enhance work in IPR and tech law
- Build stronger CVs, portfolios, and career narratives

Our mentors are continuously upskilling themselves in AI, with a clear focus on how it enhances, not replaces, sound legal thinking and basic legal work.

5. Access to a 31-page eBook on AI Prompts for Lawyers and Law Students

In collaboration with [Himansh Wadhwa](#), Legal Product Developer at Indian Kanoon and Prism, we have developed an **exclusive eBook** for all our learners, an AI Prompts Library, which is a curated, **subject-wise collection of ready-to-use prompts** built specifically for law students and young legal professionals.

The AI prompt library covers six key practice areas:

- Contract Drafting
- Legal Research & Mooting
- Litigation
- Corporate Law
- Intellectual Property Rights (IPR)
- Legal Careers

This eBook bridges the gap between knowing AI exists and actually knowing ***what to ask it***, giving learners a practical head start in applying AI across their coursework, internships, and early careers.

In Summary: AI at LLS Means

Every Lawctopus Law School learner benefits from:

- Regular LIVE AI sessions by **Indian Kanoon & Jurisphere**
- A **4-hour structured workshop** on AI for legal work
- **1-month complimentary access** to Indian Kanoon's AI tool (Prism)
- Ongoing **AI insights from Faculty & Course Mentors** during live classes
- Access to a **31-page eBook on AI Prompts**

This is how we prepare our learners for the future of legal practice: responsibly, practically, and ahead of the curve.

Frequently Asked Questions (FAQs) in Detail

1. What are the timings of the LIVE sessions?

LIVE sessions are conducted on weekdays (Monday-Saturday) from 7:00-8:30 PM.

On Sundays, sessions are scheduled either from 10:00-11:30 AM or 12:00-1:30 PM.

The detailed schedule (day, date, and time) is published a minimum of 2 months in advance.

2. What if I miss a LIVE session?

You can easily watch the recording of the LIVE session, which is uploaded on the LMS within 2 working days.

However, we recommend that you attend at least 66% of the LIVE sessions.

3. Can we download the material?

Our Learning Management System (LMS) is easily accessible via laptops, desktops, pads, and mobile devices.

You cannot download the material to your system, as it puts our material at risk for copyright violations.

We also do not give hard copies of the material.

4. What if I have an internship or other personal/professional commitments?

Our online certificate courses are made for sincere students and busy professionals. We understand that such engagements will invariably come in a span of 6 months.

Please inform us at least 15 days in advance, and our Learning Managers will make the necessary arrangements. You can:

- Watch the recorded version of the LIVE sessions that you missed once you return, do the assignments, and complete the modules you have missed
- Get shifted to the next batch when that module happens LIVE
- You'll get all the support you need, do not worry!

5. How many hours do I require to invest in the course?

Investing 4-7 hours/week is recommended. Younger students or students from the vernacular medium might need to invest additional time based on their requirements.

6. Which language is the course in?

The course and all related materials are in English. Students from any language background are welcome to join, provided they are willing to invest some additional time in the coursework.

7. Till when will I have access to this course?

You will have lifetime access to the course.
