Logical Reasoning (Critical Reasoning + Analytical Reasoning) for CLAT UG [Part 19]

Aditiya Aryan · 04 May 2026

1. Which of the following options supports the claim that regular exercise improves physical health?

- a. Many doctors recommend daily exercise.
- b. Exercise requires time and effort.
- c. Gyms charge high fees.
- d. Some people dislike exercise.

2. Find the next number: 2, 6, 12, 20, ?

- a. 28
- b. 30
- c. 32
- d. 34

3. All birds can fly. A sparrow is a bird. What follows logically?

- a. Sparrows can fly.
- b. All flying animals are birds.
- c. Sparrow is not a bird.
- d. Birds cannot fly.

4. Book : Reading :: Knife : ?

- a. Cooking
- b. Cutting
- c. Steel
- d. Kitchen

5. If APPLE is coded as BQQMF, how is MANGO coded?

- a. NBOHP
- b. NCPHP
- c. NBOIQ

d. OCPHP

6. Which option weakens the claim that online learning improves student performance?

- a. Online classes allow flexible schedules.
- b. Some students face internet connectivity issues.
- c. Online classes save travel time.
- d. Online learning is convenient.

7. 6, 13, 22, 33, ?

- a. 44
- b. 45
- c. 46
- d. 48

8. Five people stand in a line: A, B, C, D, E

A stands to the left of B

C stands to the right of B

D stands at the extreme left

Who stands second from the left?

- a. D
- b. A
- c. B
- d. C

9. All laptops are electronic devices. Some electronic devices are expensive. What conclusion is correct?

- a. All laptops are expensive.
- b. Some laptops are expensive.
- c. Laptops are electronic devices.
- d. No laptops are expensive.

10. Car : Fuel :: Human : ?

- a. Water
- b. Food
- c. Sleep
- d. Oxygen

11. Which option strengthens the argument that public libraries are important?

- a. Libraries store books and knowledge resources.
- b. Libraries require funding.
- c. Some people prefer buying books.
- d. Libraries close at night.

12. A person walks 10 km south, then 10 km north, then 5 km east. How far from the starting point?

- a. 5 km
- b. 10 km
- c. 15 km
- d. 20 km

13. “Students who sleep well perform better in exams”. Which option supports this?

- a. Sleep improves memory and concentration.
- b. Students study late at night.
- c. Exams are stressful.
- d. Schools give homework.

14. Find the odd word.

- a. Lion
- b. Tiger
- c. Leopard
- d. Elephant

15. 3, 8, 15, 24, ?

- a. 33
- b. 35
- c. 37
- d. 39

Answers

1. Correct Answer: A – Doctors recommending exercise supports the idea that exercise improves health. The other options only mention difficulties or opinions and do not strengthen the claim.

2. Correct Answer: B - The pattern increases by +4, +6, +8. The next increase should be +10.
Therefore $20 + 10 = 30$.
3. Correct Answer: A - A sparrow is a bird, and the premise dictates that all birds are capable of flight; therefore, it can be concluded that a sparrow can fly.
4. Correct Answer: B - A book is used for reading. Similarly, a knife is used for cutting.
5. Correct Answer: A - Each letter is shifted one step forward in the alphabet. For example $A \rightarrow B$ and $P \rightarrow Q$. Applying the same pattern to MANGO gives NBOHP.
6. Correct Answer: B - Internet connectivity issues may prevent students from learning effectively. This weakens the claim that online learning improves performance.
7. Correct Answer: C - The pattern increases by +7, +9, +11. The next increase is +13.
Therefore $33 + 13 = 46$.
8. Correct Answer: B - The correct order that fits all conditions is: $D \rightarrow A \rightarrow B \rightarrow C \rightarrow E$. The second from the left is A.
9. Correct Answer: C - The only definite conclusion from the statement is that laptops are electronic devices. Nothing is said about whether laptops are expensive.
10. Correct Answer: B - Fuel powers a car. Similarly, food provides energy for humans.
11. Correct Answer: A - Libraries storing books and knowledge supports their importance. The other options do not strengthen the argument.
12. Correct Answer: A - The south and north movements cancel each other. Only the 5 km east movement remains.
13. Correct Answer: A - Improved memory and concentration explain why sleep helps exam performance. The other options do not support the claim.
14. Correct Answer: D - Lion, tiger, and leopard are carnivores. Elephant is a herbivore, so it is different.
15. Correct Answer: B - The differences are +5, +7, +9. The next difference should be +11.
Therefore $24 + 11 = 35$.
