LSAC LawPrepsm: Innovative Training for Law Aspirants: Register Now!

Aprajita Karki · 01 Feb 2021

About LSAT—India

LSAT—India is a standardised test adopted as an admission criterion by multiple law colleges across India. It measures skills that are considered essential for success in law school. LSAT—India is specially created for admission to law schools in India by the Law School Admission Council, USA (LSAC).

The LSAC has been helping law schools in various countries evaluate the critical thinking skills of their applicants for more than 70 years.

About LSAC LawPrepsm

New Delhi, 15 February 2021: The Law School Admission Council (LSAC) has launched an innovative platform: LSAC LawPrepsm: designed to help Indian students improve their critical thinking and analytical reasoning skills in preparation for highly-competitive law schools entrance exams such as the LSAT—India and the Common Law Admission Test (CLAT).

By offering a series of practice tests, in a digital platform and in real-time, the new platform will help students hone their skills in an environment almost identical to actual test conditions. The online test series will help takers get familiarized with the test interface, thus alleviating some of the stress of taking the test in an online format developed during these pandemic times.

Over time, LSAC will be adding more resources to make LSAC LawPrepsm become a one-stop-shop for training for exams focusing on critical thinking and analytical reasoning skills.

All students will have an opportunity to experience LSAC LawPrepsm at no cost by just creating a profile on the platform. Upon registering their profile, LSAC will offer one practice test which will allow test takers to assess strengths and weaknesses as well as a raw score. For further practice, LSAC will offer more training in a series of 3, 5, and 10 practice exams at the following prices:

1. Series of 3 exams: INR 2399/-

2. Series of 5 exams: INR 3499/-
3. Series of 10 exams: INR 5999/-

Speaking about the Global Learning Platform launch, Kellye Testy, LSAC President & CEO said, “There is no better preparation than practice and training for a law entrance exam that requires specialized skills. We believe LSAC LawPrepsm will enhance the candidates’ exam preparation experience by guiding them on the areas which need improvement while promising a real-time exam experience”.

Applicants can register for the test series from the Discover Law **website (discoverlaw.in/).**

LSAT—India is one of the leading entrance tests for undergraduate and postgraduate law programmes in India. Please visit **DiscoverLaw.in** for a complete list of law schools that accept LSAT—India scores as one of their key admissions criteria.
