Course on Patent – Law and Practice

With the rapidly developing technology, and the increasing number of patents granted every year, protection and enforcement of patents and rights of patent holders is of utmost importance. The legal community a big role in safeguarding these rights of patent holders.

Keeping this in mind, this course has been designed to help the learners, especially lawyers and law students wishing to build their careers in Patents Law.

This course will also benefit professionals who wish to get acquainted with the law or refresh their knowledge on the subject.

Contents of the Course

- An orientation session which explains how to make full use of the course
- Rigorously researched reading resources
- Recorded video lectures covering the length and breadth of copyright law
- A discussion forum to resolve all your doubts

- Assignments (both objective and essay-type)
- Whatsapp and email groups for constant communication
- 4, 90-minute long live sessions which build upon the course material

The Lawctopus Law School team is known for excellence in delivery and we keep our students informed via regular emails, Whatsapp groups, and even phone calls (if you are lagging behind the assignments!) and you can be assured of excellent delivery of a quality course.
