This is a practice paper on reading comprehension for law entrances

Read the given passage carefully and answer the questions given after the passage

Judicial review has been a part of our democracy in this constitutional government for over 200 years. Under the Indian Constitutional state is under the prime responsibility to ensure justice, freedom, liberty and equality in the country. In order to prevent state from escaping its responsibilities the constitution has granted inherent powers to judiciary to keep a check on the state function. In this content, judiciary is considered as the guardian and protector of Indian Constitution and supervises the implementation of fundamental rights and duties in the country. In the case of L. Chandra Kumar V. Union of India it has been held that power of judicial review is a part of basic structure of the Indian Constitution.

The emergence of judicial review gave birth to a new movement which is called as Judicial Activism. Judicial Activism refers to a philosophy of judicial decision making whereby judges allows their personal views about public policy to guide their decisions. The constitution of India divides the powers of government into three branches i.e. legislature, executive and judiciary and has defined their roles clearly. Legislature and executive are responsible for making the law of the land and judiciary is responsible for interpreting these laws and also has a power to review the law i.e. whether it is made in consonance with the basic principles of constitution or not. So, it is when the judiciary steps into the shoes of the executive and legislature and embarks on the work of law making rather than interpreting laws, it is deemed to be judicial activism.

The concept of judicial activism is not new. Its origin goes back to nineteenth century America evolved by Chief Justice Marshall in the case of Marbury V. Madison. Judicial activism has risen mainly due to the failure of the executive and legislatures to discharge its responsibilities according to the laws framed the entire system has been plagued by ineffectiveness and inactiveness which leads to the violation of basic human rights. This new jurisprudence in the form of judicial activism has no doubt contributed in a great measure to the well being of the

society. It has provided a system of checks and balances to the government branches. It allows judges to use their personal wisdom and bring out an innovative solution to provide a balance at a faster pace where legislature gets stuck in the issues of majority. However the powers given to judiciary should be guarded. Repeated interference of courts can erode the faith of the people in the quality, integrity and efficiency of governmental institution. If the judiciary will assume all the functions in its own hands then it will disturb the balance created by the constitution under Doctrine of separation of powers.

Thus it is necessary that judiciary should keep in mind that judicial activism does not become judicial overreach. The court themselves must display prudence and moderation and be conscious of the need for comity of instrumentalities as basic to good governance. The great contribution of judicial activism in India has been to provide a safety valve in a democracy and a hope that justice is not beyond reach judicial activism is a sine qua non of democracy because without an alert and enlightened judiciary, the democracy will be reduced to an empty shell but it should only step in where is an utter misuse of power by the government and public interest is at stake as it is rightly said 'liberals attempt through judicial activism what they cannot even at the ballot box'.

1. under which philosophy of judicial decision making are judges allows to give their personal views about public policy in order to guide their decisions

- (a) Judicial review
- (b) Judicial activism
- (c) Judicial restraint
- (d) judicial determination

Ans: (b)

Explanation: This is a direct question. The answer can be picked from the sentence in the passage 'Judicial Activism refers to a philosophy of judicial decision making whereby judges allows their personal views about public policy to guide their decisions'

1. The author's tone in the passage is best described as

- (a) Concerned (b) passionate (c) informative (d) opinionated
