Sanya Ambastha · 07 Jun 2026

As you begin with your preparation for CLAT 2025, it is essential to understand the importance of using the correct resources in the correct way and at the correct time. One of THE MOST important resources that could help you are Previous Year Question Papers of CLAT.

Read this article to find out how previous year question papers of CLAT can help you ace the test!

1. Understanding the pattern:

CLAT previous years' papers are a great help in understanding the pattern of the exams. While consortium has, in the past, changed the pattern of questions frequently, they have usually been on a superficial level. The basic concepts behind the questions remain the same.

For example, the passages in the Reading Comprehension section require a detailed understanding of the passage. They are sometimes time-intensive, and thus, need a fast reading and comprehension speed. The Quantitative Techniques Section, regardless of whether it is in the form of Data Interpretation or not, tests arithmetic topics such as percentages, ratio and proportion, etc. Solving the previous years' papers will give you an idea of the type of questions that can be asked. For CLAT 2024, provided that the CLAT 2023 pattern is followed, candidates can follow previous year question paper of CLAT.

2. Time Management:

Solving previous years' papers will help you understand the time you take in solving a 120 minute paper. All papers have been set according to this timing, with some being lengthy and some less time-taking. Practicing such papers will make you sufficiently prepared to attempt any paper that comes, of whichever difficulty level or length. It also helps you figure out how much time you need

to spend solving each section.

3. Understanding the difficulty level:

Previous years question paper of CLAT can help you understand the difficulty level or the quality of questions of the paper. If you have successfully attempted all previous years' papers, with varying levels of difficulty, you will be in a much better position to face different kinds of papers.

4. Getting a feel of the exam:

This is extremely important when you are preparing for CLAT. If you haven't already started doing this, start now. Attempt these papers as if you are sitting in a real exam. Follow the timing accurately, no distractions or breaks in between. Do it offline, with an OMR Sheet. This will help you understand the amount of time you take in filling OMR MCQ bubbles. Do it with different types of pens, find one that works the best for you. Do it with a watch tied around your wrist, preferably a watch that you will wear on the exam day. After the exam is over, analyze the paper, properly. Focus on where you might have scored better, but didn't because of small mistakes. Learn from your mistakes and improve on that.
