QUESTIONS ON STATEMENT AND ASSUMPTION

Remember, in Statement and Assumptions/Arguments questions, you have to evaluate whether the assumptions are implicit in the given statement or arguments fall in place with the statements.

A. Statement: The city's public transportation system will be expanded with new routes and increased frequency.

Assumptions:

1. There is a demand for more public transportation options in the city.
2. The city's population is expected to increase in the near future.

B. Statement: Only individuals above the age of 18 are allowed to participate in the competition.

Assumptions:

1. Participants below the age of 18 may not have the required skills for the competition.
2. The competition organizers want to ensure fair and mature participation.

C. Statement: The company will introduce a new line of organic skincare products.

Assumptions:

1. The company has conducted market research to identify potential customers for the new products.
2. There is a market demand for organic skincare products.

D. Statement: Due to a recent increase in traffic accidents, the government plans to implement stricter traffic regulations.

Assumptions:

1. Stricter traffic regulations will lead to a reduction in traffic accidents.
2. The current traffic regulations are not effectively preventing accidents.

E. Statement: The university's new online learning platform aims to reach a wider range of students.

Assumptions:

1. Students prefer online platforms over traditional classroom learning.
2. There is a demand for online education among students.

F. Statement: Should paparazzis who take pictures of the children of celebrities be criminally prosecuted?

Arguments: I. Yes. These people violate the rights of privacy of the kids.
II. No. These people are just doing their jobs and following the orders of their superiors.
(A) Only argument I is strong. (B) Only argument II is strong.
(C) Neither I nor II is strong. (D) Both I and II are strong.

G. Statement: Should research in the field of artificial intelligence be stopped?

Arguments: I. Yes. It increases human dependency on machines.
II. No. It would stop human evolution.
(A) Only argument I is strong. (B) Only argument II is strong.
(C) Neither I nor II is strong. (D) Both I and II are strong.

H. Statement: Should India adopt a bi-party system instead of a multi-party system?

Arguments: I. No. It would undermine the diversity of the country.
II. Yes. All coalition governments are weak and indecisive.
(A) Only argument I is strong. (B) Only argument II is strong.
(C) Neither I nor II is strong. (D) Both I and II are strong.

I. Statement: Should e-waste management by recycling of old electronic devices be promoted?

Arguments: I. No. It would prevent people from purchasing unnecessary devices.
II. Yes. It would greatly prevent environmental degradation.
(A) Only argument I is strong. (B) Only argument II is strong.
(C) Neither I nor II is strong. (D) Both I and II are strong.
