Sectional Test on Current Affairs for CLAT UG [Part 9]

Adtiya Aryan · 07 May 2026

1. India recently signed an agreement to enhance semiconductor cooperation with which country?

a. Japan

b. South Korea

c. United States

d. Germany

2. Which organisation recently released a report warning about rising global public debt risks?

a. World Bank

b. IMF

c. OECD

d. UNDP

3. Which country recently conducted a high-profile hypersonic missile test, drawing global attention?

a. China

b. Russia

c. United States

d. North Korea

4. India recently launched an initiative to promote digital agriculture using which technology?

a. Blockchain

b. Artificial Intelligence

c. Quantum Computing

d. 5G-only systems

5. Which international grouping recently discussed expansion and currency settlement mechanisms?

a. G7

b. QUAD

c. BRICS

d. ASEAN

6. Which Indian state recently announced a new policy to boost green hydrogen production?

a. Gujarat

b. Maharashtra

c. Tamil Nadu

d. Rajasthan

7. Which space agency recently conducted a key test related to human spaceflight safety systems?

a. NASA

b. ESA

c. ISRO

d. Roscosmos

8. A recent global report highlighted risks associated with the misuse of which emerging technology?

a. Blockchain

b. Artificial Intelligence

c. Nuclear fusion

d. Space mining

9. Which country recently assumed a leadership role in a major European institution?

a. France

b. Hungary

c. Spain

d. Italy

10. India recently increased focus on which sector under its “Blue Economy” initiatives?

a. Space exploration

b. Marine resources and fisheries

c. Desert agriculture

d. Mountain tourism

11. Which global city was recently ranked among the safest in the world again?

a. Singapore

b. Tokyo

c. Abu Dhabi

d. Zurich

12. Which global city was recently ranked among the safest in the world again?

a. Solar eclipse

b. Coronal mass ejection

c. Asteroid impact

d. Meteor shower

13. India recently launched new crop varieties primarily to improve:

a. Export quality only

b. Climate resilience and yield

c. Urban agriculture

d. Organic certification

14. Which organisation recently emphasised the importance of digital public infrastructure globally?

a. WTO

b. World Bank

c. IMF

d. WHO

15. Which region recently saw heightened tensions due to maritime disputes?

a. Arctic Ocean

b. South China Sea

c. Mediterranean Sea

d. Baltic Sea

Answers

1. Correct Answer: C – To enhance its domestic chip manufacturing capabilities, India is strengthening semiconductor collaborations with the United States as part of key technology initiatives.
2. Correct Answer: B – The International Monetary Fund flagged concerns about unsustainable global debt levels, especially in developing economies.
3. Correct Answer: D – Ongoing testing of advanced missile systems, including hypersonic variants, by North Korea continues to escalate regional security concerns.
4. Correct Answer: B – The government is encouraging the use of AI-driven agriculture tools to enhance precision farming, which includes monitoring crops and predicting yields.
5. Correct Answer: C – BRICS discussions have focused on expansion and reducing dependence on the US dollar.
6. Correct Answer: D – Rajasthan has taken steps to position itself as a hub for green hydrogen, leveraging solar energy potential.
7. Correct Answer: C – Indian Space Research Organisation (ISRO) conducted tests linked to the Gaganyaan mission, including crew safety systems.
8. Correct Answer: B – Reports have repeatedly warned about AI misuse, including misinformation and cyber threats.
9. Correct Answer: B
10. Correct Answer: B – The Blue Economy centers on the sustainable utilization of ocean resources, with a particular emphasis on marine biodiversity, fisheries, and coastal development.
11. Correct Answer: C
12. Correct Answer: B – A coronal mass ejection (CME) can disrupt satellites, GPS, and communication systems.
13. Correct Answer: B – New crop varieties focus on higher productivity, climate resistance, and reduced input costs.
14. Correct Answer: B
15. Correct Answer: B – Territorial disputes and strategic navigation concerns ensure that the South China Sea remains a significant regional hotspot.
